1. Claims 2 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, use of the phrase “a US Army standard issue machine gun” makes the claim indefinite. The term US Army standard issue changes over time and circumstances. What is standard issue today may not be standard issue in the future with advances in technology.

Further, is this terminology intended to include standard issue machine guns as far back as the 19th century some of which would not be compatible with the ammunition feeder as claimed?

In claim 8, line 3, use of the phrase “conventional loading times” makes the claim indefinite as to what times would or would not be inclusive in such terminology as well as which weapons

loading times are intended to be associated with the claimed conventional loading times.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 2 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 2 as amended claims a “US Army standard issue machine gun”. However, the specification as originally filed, recites only “M 60” and “Golf 240” machine guns. As such, the claims as now claimed encompasses all US Army standard issue machine guns when applicant has support for only the recited M60 and Golf 240.

4. Claims 1, 3-7, and 9-10 are allowed.

5. Claim 8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Applicant's arguments with respect to claims 2 and 8 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
